

Charitha Boddupally

+91 7093734585 | boddupallycharitha@gmail.com | GitHub | LinkedIn | LeetCode

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in AI Engineering, Python backend development, and intelligent systems. Experienced in building AI-powered applications using FastAPI, LangChain, Retrieval-Augmented Generation (RAG), OpenAI APIs, and Prompt Engineering. Passionate about developing AI agents, LLM-powered workflows, automation systems, and scalable backend applications.

EDUCATION

Sphoorthy Engineering College
B.Tech in Computer Science Engineering — Department Rank: 2

Hyderabad
Jun 2023 – May 2027

TECHNICAL SKILLS

Languages: Python, Java, JavaScript
Frontend: HTML, CSS, React, Tailwind CSS
Backend: FastAPI, Flask, REST APIs, Node.js
Databases: SQLite, MySQL, ChromaDB (Learning)
AI Engineering: Large Language Models (LLMs), LangChain, OpenAI APIs, AI Agents, Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Workflows, n8n
Core Concepts: Data Structures, Algorithms, OOPs, Problem-Solving
Tools: Git, GitHub, Postman, VS Code, PythonAnywhere

EXPERIENCE

Web Developer Intern
Bharath Economic Forum

Jun 2025 – Aug 2025
Remote

- Built responsive React applications integrated with REST APIs to deliver scalable web solutions.
- Collaborated with developers using Git and GitHub while following version control best practices.
- Improved frontend performance, component reusability, and overall user experience.

PROJECTS

AI Security Agent
Python, FastAPI, LangChain

Ongoing

- Built multiple AI-powered and full-stack applications using FastAPI, LangChain, and Python.
- Developing REST APIs with FastAPI and modular backend architecture following production-ready software engineering practices.
- Implementing Prompt Engineering, LangChain workflows, and Retrieval-Augmented Generation (RAG) for intelligent responses.
- Designing scalable AI workflows for autonomous reasoning and task execution.

NeuroGuard – AI Digital Wellbeing System
Android + AI + FastAPI

Ongoing

- Developing an AI-powered digital wellbeing assistant to reduce dopamine addiction caused by excessive social media usage.
- Designing intelligent AI workflows using Prompt Engineering and LLM APIs to provide personalized behavioural recommendations.
- Building scalable backend APIs using FastAPI while integrating Android Accessibility Services for user activity monitoring.

Developed a full-stack event management portal using Flask, SQLite, and REST APIs. Implemented event registration, CRUD operations, database integration, and cloud deployment using PythonAnywhere.

E-Display Smart Classroom System
Python Desktop Application

May 2025

- Designed and developed a Python desktop application for automated timetable display, announcements, and classroom scheduling with an interactive user interface.

INTERNSHIPS

Python Full Stack Developer Virtual Internship – EduSkills	2026
Google AI-ML Virtual Internship	2025
Google Android Developer Virtual Internship	2024

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified DevOps Professional – Oracle
CCNA: Introduction to Networks – Cisco
Networking Basics – Cisco
HackerRank Gold Badge – Java

CODING PROFILES

LeetCode: leetcode.com/u/boddupallycharitha

HackerRank: hackerrank.com/profile/boddupallychari1

GeeksforGeeks: geeksforgeeks.org/profile/boddupallykw5e

SOFT SKILLS

Problem-Solving

Logical Thinking

Collaborative Teamwork

Ability to Work Independently

ACHIEVEMENTS

- Secured **2nd Rank** in Computer Science Department.
- Won **1st Prize in Champions of Champions Chess Competition**.
- Built multiple AI-focused and full stack development projects.
- Active problem solver on LeetCode, HackerRank, and GeeksforGeeks.
